

THE WEATHER: Fair Wednesday and Thursday.

The Pensacola Journal.

THE JOURNAL'S Want Ad. page is always read by nearly all the people.

VOL. VIII. NO 206

PENSACOLA, FLORIDA, WEDNESDAY MORNING, SEPTEMBER 6, 1905.

PRICE, 5 CENTS

PEACE TREATY SIGNED AT 3:47 p. m. YESTERDAY

Event Signalized By Salute from Uncle Sam's Guns and Ringing of City Church Bells.

ENVOYS HAPPY

Witte and Komuro Exchange Felicitations Over Result.

JAPANESE CHARACTERIZE TREATY AS MOST IMPORTANT HISTORICAL EVENT OF 20TH CENTURY — RUSSIANS ATTEND THANKSGIVING SERVICE AT CHURCH.

By Associated Press. Portsmouth, Sept. 5.—The peace treaty between Russia and Japan was signed at 3:47 o'clock this afternoon. A salute from the navy yard signaled the event. When the salute was heard, all the church bells at New Castle, Kettering, and Portsmouth rang for about ten minutes, flags were hoisted and general satisfaction was manifested.

Both Russian and Japanese missions on arriving at the navy yard were received at the building by Admiral Mead, and two companies of marines rendered military honors.

Copies of the treaty of peace had been carefully compared by the secretaries of the two missions, to avoid the necessity of reading them before signing. When the secretaries reported the perfect exactness of the two copies of the treaty, the plenipotentiaries and other members of the two missions entered the conference hall, accompanied by Assistant Secretary Pierce, Governor McLane, Admiral Mead and the mayor of Portsmouth. M. Witte, chief of the Russian plenipotentiaries, was the first to sign.

After the ceremonies of signing, Baron Rosen made a short speech, pointing out the importance of the event and the influence it would have on the relations between the two countries. He closed by expressing the satisfaction he felt at the good relations which characterized the work of the envoys. Baron Komuro replied, paraphrasing Rosen's speech and returning thanks for the kind words addressed to himself and the members of his mission.

The entire Russian mission, headed by M. Witte, attended a thanksgiving service in Christ Episcopal church at which the officers are both American and Russian clergymen.

Re-entering the hotel, one of the chief members of the Japanese mission said: "The treaty signed to-day will be the most important historical feature of the twentieth century."

PENSACOLIANS AT JACKSONVILLE

THEY ARE BEING DETAINED THERE FOR TEN FULL DAYS. ALL ARE DOING WELL.

Jacksonville, Sept. 5.—Dr. R. H. McGinnis, special agent to the state health officer, visited the detention camp, where the people from Pensacola are being detained, yesterday and found all of them getting along nicely.

There has not been the slightest rise in the temperature of any of the boarders at the camp. They are all in excellent health and their appetites are fine.

The first person sent to the camp was a colored woman, who left Pensacola August 26. While it is customary to only detain persons from an infected point for five days, each and every one of the persons now in camp will be held ten full days from the date of their leaving Pensacola. The colored woman's ten days detention will be up to-morrow and she will be released.

The three mail clerks will be held until Thursday, the express messenger and the Pullman car conductor and porter first detained, will not be released until Friday and the others will be a day or two longer in camp.

Monthly Cotton Report for August Has Been Issued

By Associated Press. Washington, Sept. 5.—The monthly cotton report was issued at noon to-day by the department of agriculture. It shows the average condition of the crop August 25, to be 72.1 per cent as compared with 74.9 for July 25, and 71.4 for August, last year, and a ten

TOTAL OF 77 CASES AND 24 DEATHS FROM CHOLERA

ALL CASES IN PREVIOUSLY INFECTED DISTRICT AND AUTHORITIES THINK THERE IS LITTLE DANGER OF SPREAD. QUARANTINE ESTABLISHED, PASSENGERS EXAMINED AND BAGGAGE FUMIGATED.

By Associated Press. Berlin, Sept. 5.—It is officially announced that eleven new cases of cholera and one death are reported to-day, making a total of 77 cases and 24 deaths. The new cases are from localities previously infected, hence the authorities regard the last twenty-

four hours with satisfaction. The deaths do not spread and with one or two exceptions, the new cases are persons who are in quarantine because they had come in contact with cholera. Passengers crossing the Russian frontier are examined and their baggage fumigated, especially those entering by the Warsaw route.

J. C. CARRUTHERS DIED LAST NIGHT

PENSACOLIAN WHO WAS TAKEN WITH YELLOW FEVER INFLUENZA. LANTA HAS EXPIRED.

Special to The Journal. Atlanta, Sept. 5.—Jno. C. Carruthers, the Pensacolian who arrived here Saturday sick with yellow fever, died today. His funeral will occur at 1:15 p. m. Wednesday.

LEE AND GRANT WILL DO HONORS

KINSMEN OF DISTINGUISHED WARRIORS WILL HAVE COMMAND OF SOCIAL ARMY THIS WINTER.

Washington, Sept. 5.—Captain Fitzhugh Lee, Seventh cavalry, United States army, a grand nephew of Gen. Robert E. Lee, Confederate States of America, and Lieut. U. S. Grant, corps of engineers, United States army, a grand son of Gen. U. S. Grant, United States army, will have joint command of the social army at the White House this winter.

The President designated them yesterday to this important assignment to mingle with the guests at the White House functions this winter and make themselves generally useful in the social line.

Captain Lee served through the Spanish war as a lieutenant of engineers and was appointed a second lieutenant of infantry seven years ago today. Lieutenant Grant was appointed to the military academy in 1899 graduating as a second lieutenant of engineers four years later. Both young officers have fine records.

FRENCH CABLE CO. WAS DISSOLVED

PRESIDENT OF VENEZUELA ISSUES DECREE CLOSING COAST AND OVERLAND OFFICES.

By Associated Press. Caracas, Venezuela, Sept. 5.—Pursuant to a judgment dissolving the contract with the French Cable Company, a presidential decree was issued to-day which closed the coast and overland offices of the company. The company, however, remains in charge of the La Guaira office for the dispatches relating to the foreign business.

ALPHONSE WILL MARRY PRINCESS

By Associated Press. Paris, Sept. 5.—A dispatch from Madrid maintains that, despite denials, it is probable that King Alfonso of Spain, will marry Princess Eugenia, of Battenburg, niece of King Edward, of Great Britain.

CASES AGAIN SHOW DECREASE

Only 32 New Cases and 2 Deaths From Yellow Fever at New Orleans Yesterday.

SUCCESSFUL FIGHT

Thought that Results Will Even Exceed Those Attained at Havana.

BUSINESS STILL BADLY HANDICAPPED BUT IS BEING CONDUCTED BY MAIL—FEVER SITUATION WILL NOT INTERFERE WITH MOVEMENT OF COTTON CROP.

By Associated Press. New Orleans, Sept. 5.—The fever report up to 6 p. m. to-day was as follows: New cases, 32; total to date, 2,111. Deaths, 2; total, 294. New food, 9. Cases under treatment, 330; cases discharged, 1,487.

The Fight Successful. New Orleans, Sept. 5.—Confidence that to-day's records indicate that the fight against the yellow fever under the most adverse circumstances is to be more completely successful than that at Havana. An improved situation in all the built-up parts of the city will be the inevitable result of the passing misfortune. The federal authorities point out that there is wide room for it.

Said Dr. White to-day: "The area of New Orleans is five or six times as large as it should be for the population. The working classes live in little cottages scattered to the four winds over an area larger than Philadelphia. Many live where the streets cannot be paved, water systems in introduced or sewerage and drainage."

TARTARS CAUSE REIGN OF TERROR

WHOLE OF SOUTHEAST CAUCASUS INVADIED, MANY ENGAGEMENTS OCCUR AND HOUSES ARE DESTROYED BY FIRE. COUNTRY IN WILD STATE OF PANIC, FAMINE AND DISORDER.

By Associated Press. St. Petersburg, Sept. 5.—A dispatch from Wilis, received to-day, says that the whole of the southeast Caucasus is now terrorized by the Tartars. Refugees pouring in here from Baku, Elizabetopol and Shusha. The details from Shusha show that several engagements have been fought between the Tartars and Armenians behind regular positions and that a considerable part of the town was seen in flames. According to an official estimate, more than two hundred houses were destroyed.

RIOT, MURDER, PILLAGE, PANIC AND FAMINE REPORTED. Baku, Sept. 5.—Troops under the governor are acting with the utmost vigor, but have not succeeded in restoring order. Armed rioters to-day attacked the oil works in a suburb of Balakhani and set them on fire. Tartar bands are roving the country murdering and pillaging. The country is in a wild state of panic and the farms are being abandoned, while famine in many parts of the country renders the situation more terrible.

SAYS PENSACOLA HAS SOUNDED KEY NOTE

Mayor Bliss Receives Letter From Memphis Merchants Exchange on National Quarantine.

The following letter from Secretary N. S. Graves, of the Memphis Merchants Exchange, is self explanatory: Memphis, Tenn., Aug. 30, 1905. Hon. Chas. H. Bliss, Mayor, Pensacola, Fla.—National Quarantine: Dear Sir—Your favor of the 19th came duly and found us crowded out of house and home by the Board of Health, whose quarters were entirely too small to accommodate the public. Later I was taken ill and have just recovered.

I think you have sounded the key note of the whole yellow fever proposition, and will urge upon this Exchange at the proper time to take action along the lines suggested by you. Very truly yours, N. S. GRAVES, Secy. Memphis Merchants Exchange.

FLORIDA'S PURE FOOD LAW IS ENDORSED

Southwestern Millers Association Meets in Nashville and Considers Pure Food Legislation.

Tallahassee, Sept. 25.—Commissioner of Agriculture McLin is in receipt of the following letter from the "Southeastern Millers' Association" which met in Nashville, Tenn., yesterday:

To Commissioner McLin, Office of Southeastern Millers' Association, W. R. Donnelly, Secretary, 321 Jackson Building, Telephone 3747 W., Nashville Tenn., Aug. 20, 1905.

Hon. B. E. McLin, Commissioner of Agriculture, Tallahassee, Fla.: Dear Sir—At a special meeting of the Southeastern Millers' Association, held in Nashville, Tenn., August 22nd, 1905, the Florida Pure Food law regulating the manufacture and sale of commercial feeding stuffs, in effect August 22nd, 1905, was fully considered in all its bearings on the trade.

After careful deliberation it was the sense of the meeting that this law be heartily indorsed, and that every effort be made by the members of this association to encourage the passage of similar pure food laws in every Southern state; and the following motion was recorded in the minutes of the meeting:

Moved and seconded, that the secretary be instructed to write letters to the secretary of state and commissioner of agriculture of Florida, stating that the Southeastern Millers' Association, composed of forty merchant mills in the states of Tennessee, Kentucky, Georgia, North Carolina and Indiana, heartily indorse this law. Copies of this motion to be furnished the Associated Press and secretaries of state of North Carolina and Louisiana. Carried.

Yours very truly, SOUTHEASTERN MILLERS' ASSN. (Signed) W. H. DONNELLY, Secretary.

A Good Law.

The Florida Commercial Feed Stuff Law being a subject that is receiving much attention at this time by the manufacturers and dealers in stock feed, it is very encouraging to Commissioner McLin, to find so prominent and influential an organization as the Southeastern Millers' Association indorsing our new law in such positive terms. This notification should be evidence to the dealers in Florida, as well as consumers of stock feed, that our law will prove a protection to honest manufacturers of stock feed and a detriment to mixers of feeds who adulterate so extensively and yet demand the full price for their goods that pure feed should bring.

Mr. McLin stated further, that he wished to call the attention of importers, brokers, and consumers to the fact that there are many short weight goods being sold on the market for full weight. See that your packages have the pounds printed on the tag. In addition to the stamp denomination as the manufacturer may place a stamp of higher denomination than his package contains.

4 NEW CASES FOR YESTERDAY

All Cases of Infection Are In or Directly Traceable to the Original Infected District.

PORTER HOPEFUL

Drs. Kennedy and D'Alemberte Will Begin Refumigation To-day.

THE DOCTORS MEET WITH SOME OPPOSITION BUT THEY ARE NEVERTHELESS DOING THEIR DUTY AND WILL SEE THAT WHOLE SECTION IS AGAIN THOROUGHLY FUMIGATED AND HOUSES SCREENED.

New cases, 4; total cases to date, 16. Cases under treatment, 11.

The yellow fever situation in Pensacola is practically unchanged. The official report of yesterday showed four new cases, two of which are in the same house, and all of which are traced from the original infected district.

The New Cases.

The new cases are: Judge Boykin Jones, corner Spring and Strong streets. W. H. Fisher, (quarantine guard) 212 N. DeVilliers St. Fritz Householder, 240 E. Intendencia St. Horace Rosique, 240 E. Intendencia St.

A number of suspicious cases were reported yesterday, but most of them were dismissed, and the physicians are hopeful that within a short time the fever will be stamped out entirely.

When seen last night Dr. Porter expressed the hope that conditions would improve before the end of the present week. He says that he wishes to urge relentless war on the mosquito.

Among the suspicious cases reported yesterday was that of Percy S. Hayes, city editor of The Journal. An examination last night, however, showed that he has no symptoms of yellow fever and he may be at work again in a day or two.

On account of the house to houses canvass which is now being made there will no doubt be a large number of suspicious cases reported, because of the fact that inspectors are required to report all cases of sickness and these are entered as suspicious cases until an examination is made.

Fumigation Begins. The infected district will be again fumigated, in fact, the work of fumigation was begun yesterday afternoon by Drs. Kennedy and D'Alemberte. Each of 169 houses in the district will be refumigated, and in this case the houses will be fumigated for two hours instead of one as in the first fumigation.

The doctors who have this task in hand will no doubt be subjected to considerable indignities at the hands of those who are chaffing under the quarantine restrictions and the fumigation.

(Continued on Page Five.)

Did You Ever Notice

THAT OFTEN TIMES THE CITIZEN WHO KNOCKS HOME INSTITUTIONS AND THE HEALTH OFFICIALS WITH THE LARGEST HAMMER—WHO INSISTS THAT THE TOWN IS NO GOOD OR WHO WON'T BELIEVE YELLOW FEVER IS HERE AFTER THE PHYSICIANS HAVE SAID IT IS—DID YOU EVER NOTICE THAT HE IS THE ONE WHO GETS OUT OF SIGHT THE QUICKEST WHEN IT COMES TO PAYING TAXES, AND WHO LEAVES THE TOWN ON THE FIRST TRAIN WHEN THERE IS A DISEASE TO FIGHT?

President Roosevelt Fires Public Printer in Government Office

By Associated Press. Washington, Sept. 5.—Public Printer W. F. Palmer has practically been ousted from office. It is authoritatively learned to-night that President Roosevelt has demanded Palmer's resignation, to take effect September 15th. The cause primarily for the demand being Palmer's action in trying to force Oscar Bickett and L. C. Ray, foremen in the government office, out on the ground that they had been in-

subordinate.
